PITSS.CON Customer Success for Oracle FORMS

## Using PITSS.CON, Stora Enso attains consolidated Forms application based on Oracle Fusion middleware

**"We looked at a number of migration options and we chose PITSS.CON due to its integrated package - including Workshop. We also intend to use PITSS.CON for the development of our Forms applications and for version control."**

Gerhard Zeilinger, Project Manager, Stora Enso Timber AG

### Customer profile

Stora Enso Timber is a wood products manufacturer that offers customer-orientated solutions for the world's construction industry, joinery sector and timber trade. With a production capacity of 7.7 million cubic metres of trimmed timber products, including 3.4 million cubic metres of further processing products, Stora Enso achieves an annual turnover of 1.7 thousand million EUR.

The company employs a total of 5,000 staff in 29 production plants and its own sales and distribution networks throughout the world. Stora Enso Timber is a part of the world's leading forestry industry group, Stora Enso. The production programme of the Scandinavian company includes paper for newspapers and magazines, fine papers, packaging cardboard and wood products.

Project

**Migration of FORMS 3.0 CS to  
Forms 10g with PITSS.CON**

### Initial Position

Stora Enso Timber AG have been using the tried & tested Oracle Forms technology for years, and have an extensive application with about 400 forms. A forthcoming hardware upgrade and requirements for consolidation of the decentralised application meant that it was necessary to migrate from Forms version 3.0 to a central Web Forms 10g.

Project data  
**Version of Forms: 3.0 cs**  
**No. of Forms: 400**  
**No. of Forms users: 300**  
**Project Term: 3 Tage**  
**Operating system: AIX**  
**Datavbase: Oracle 10 g**

### Challenge

Stora Enso Timber are looking for a cost-effective, rapid and reliable migration solution for the Forms application. Furthermore, the company require a powerful and integrated solution for development of their application and for version control. These requirements necessitate a first-class tool with a broad function spectrum.

Objective  
**Executable Forms application 10g on a new hardware platform; consolidation of the decentralised application**

### Solution

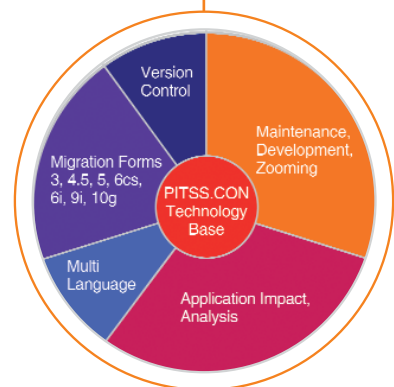

After examining a number of options, Stora Enso Timber chose PITSS.CON as the most comprehensive solution. The old forms were migrated from 3.0 to 10g in Workshop, allowing an immediate fine tuning. In this way, the migrated Forms application with 400 forms ran faultlessly on the new hardware using Oracle Application Server 10g. In future, PITSS.CON will be utilised for development and for version control of the Forms application.

Result  
**Rapid migration with PITSS.CON; executable and high-performance Forms version 10g on new hardware; central application**

### Utilised PITSS.CON modules

- ✓ Version Control
- ✓ Migration
- ✓ Application Impact / Analysis
- ✓ Maintenance

PITSS GmbH

**PITSS GmbH is the leading supplier of complete IT solutions for effectively managing Oracle FORMS applications. PITSS is an Oracle Certified Advantage Partner and works on projects in Europe, USA and Asia.**

PITSS.CON

**The innovative PITSS.CON software supports companies to quickly and cost-effectively analyse, migrate, develop and maintain Oracle FORMS applications.**
