

# PITSS.CON Workshop Maintenance & Development

Workshop Offer

## Maintenance and Development of Forms Applications

ORACLE CERTIFIED ADVANTAGE PARTNER

This PITSS.CON workshop gives you the opportunity to:

► **Maintaining, updating and refining large Oracle Forms applications effectively and reliably.**

Do you wish to continue working with your Oracle Forms applications without error, while making adjustments, modifications or extensions? Forms applications have often become excessively large and complex application constructs over the course of time, making a clear overview increasingly impossible. PITSS.CON can enable you to gain this clear overview again, so that your Forms applications can execute without problem, thus allowing you to work smoothly on and with the applications.

**Contents:** In this workshop, you will learn how to identify all objects in your Oracle Forms applications as well as implement standard processes so that you can then edit your applications really easily. We conduct the entire workshop jointly with your team.  
We can give you the skills to tackle the following subjects:

- Identifying non-referenced objects
- Specifying reference standards for current objects
- Identifying referenced objects
- Centralising reusable objects
- Establishing name conventions for program units
- Implementing logging calls in defined triggers (mass changes)
- Specifying and extending standards for Look and Feel

**Aims:**

- Defining and referencing standard objects
- Documentation of your Forms applications
- Making mass changes quickly and reliably
- Code optimisation

**Duration:** 2 Days

**Documentation:** The workshop documents and results will be given to you after completing the workshop.

**Target group:** Oracle Forms Developer

**Prerequisites:** Knowledge of Oracle Forms

**Scope of offer:** 2-day workshop with your developers at your company; Analysis and implementation of your application with examples; not including travelling and food/accommodation expenses.

Learn how to maintain, update and refine your Forms applications effectively and reliably with tool assistance!

- ☑ Effective maintenance and updating
- ☑ Introduction of standards
- ☑ Consolidating redundancies
- ☑ Rapid identification of targeted code locations

### About PITSS

PITSS GmbH is the leading provider of complete integrated solutions for effectively managing Oracle Forms applications. The innovative PITSS.CON software offers companies a complete support package for successful analysis, migration, development and maintenance of Oracle Forms applications.
